SIEMENS

# It has never been easier to get started

siemens.com/s7-1200

## Explore engineering efficiency

The latest developments in automation for Siemens make it amazingly easy to perform automation tasks. And it has now become even easier to learn all the basics of the new TIA Portal generation by practical examples: A number of concise Web tutorials make learning Siemens automation fast and simple – Automation Tasks in 10 minutes or less.

Discover how easy it is for you to save engineering time in your daily work at: **siemens.com/automation-tasks**

## Automation configuration simplified

The TIA Selection Tool makes the configuration of your automation system a breeze. You can easily select, configure, and order devices for Totally Integrated Automation. A sequel to the proven SIMATIC Selection Tool, the TIA Selection Tool combines several configurators used in automation technology in a single, easily accessible tool.

Simply start the TIA Selection Tool right from the Siemens Industry Mall or download a ZIP file for local installation. Learn more at: **siemens.com/tia-selection-tool**

# SIMATIC S7-1200 Starter Kits

**Discover the new SIMATIC S7-1200 – it couldn't be easier**
There are four different SIMATIC S7-1200 Starter Kits to choose from and they will let you get your automation system started with this new modular controller in the blink of an eye.

## Package 1: SIMATIC S7-1200 Starter Kit

CPU 1212C AC/DC/RLY, Input Simulator, SIMATIC STEP 7 Basic in the TIA Portal, IE TP Cord 2 m, Documentation Collection CD, and more ...

6ES7 212-1BD34-4YB0

## Package 2: SIMATIC S7-1200 + HMI KP300 Basic Panel Starter Kit

CPU 1212C AC/DC/RLY, Input Simulator, KP300 Basic mono PN, SIMATIC STEP 7 Basic in the TIA Portal, IE TP Cord 2 m, Documentation Collection CD, and more ...

6AV6 651-7HA01-3AA4

## Package 3: SIMATIC S7-1200 + HMI KTP400 Basic Panel Starter Kit

CPU 1212C AC/DC/RLY, Input Simulator, KTP400 Basic color PN, SIMATIC STEP 7 Basic in the TIA Portal, IE TP Cord 2 m, Documentation Collection CD, and more ...

6AV6 651-7KA01-3AA4

## Package 4: SIMATIC S7-1200 + HMI KTP700 Basic Panel Starter Kit

CPU 1212C AC/DC/RLY, Input Simulator, KTP700 Basic Panel, SIMATIC STEP 7 Basic in the TIA Portal, IE TP Cord 2 m, Documentation Collection CD, and more ...
